Alyse Galvin
Candidate for
United States Congress
Received the AMIA
Green Stamp of Approval!

When we asked her if she wanted the Green Stamp, she replied:

"I understand the importance of the marijuana industry to Alaska's economy and firmly support legalization and decriminalization of cannabis at the federal level.

I am also deeply concerned about the public safety of cannabis industry workers in Alaska and will work to reform federal banking laws so that the marijuana industry can safely do business in our state.

Finally, I support amending our federal tax code to allow the cannabis industry to operate like any other business in Alaska.

It's time to respect Alaskan voters and to work toward true federal reform for Alaska's cannabis industry. "
